

EXCELLENCE

INNOVATION

PARTNERSHIP

Big Bear Refrigeration Air Conditioning is a Sydney based team of air conditioning and refrigeration specialists.

Our commitment to service quality, safety and excellence, reliability and integrity has established us as a reputable service, maintenance, design and installation company.

Your satisfaction is our primary focus.

We listen to our clients and work together to achieve shared goals that deliver high quality and cost effective solutions, personalised to suit your business and specific requirements.

Our team members are mature and experienced professionals who are widely recognised as industry experts.

Service excellence, continuous improvement and quality solution delivery are the performance standards that we adhere to.

We keep up to date with the latest in industry technology, delivery techniques and methods to ensure you and your business retain the maximum benefit and optimal efficiency.

We value our clients and are proud of the relationships and the reputation we have built.

At Big Bear Refrigeration Air Conditioning, the service and ongoing support does not stop once your equipment has been installed or your breakdown resolved.

We work together to help you look after your assets and we will support and communicate with you every step of the way.

We look forward to partnering with you and together, achieving results.

Commercial Air Conditioning

Big Bear Refrigeration Air Conditioning are experienced in the supply, installation and service of all size systems from standalone to high rise. We are confident that we can handle your air conditioning needs:

- Preventative maintenance programs
- Ducted and Split Systems
- Mechanical Services / Carpark ventilation
- Water Loop Systems
- Computer Room Air Conditioning Systems
- Air balancing

Industrial and Commercial Refrigeration

We understand that optimal performance of your refrigeration plant and equipment is critical to the success of your business.

We are experienced in working with complex and challenging systems and the extensive knowledge and skills of our technical team mean that we can diagnose and repair without delay. Talk to us about how we can work together.

Supermarket Refrigeration

At Big Bear Refrigeration Air Conditioning, our technicians have the knowledge and expertise to deliver your refrigeration solutions from single cool rooms and freezers to large scale supermarket applications.

When it comes to installing, servicing and maintaining your assets, Big Bear Refrigeration Air Conditioning are the trusted and reliable partner that you need.

"I really appreciate BBRAC for saving my business. They knew exactly what they were talking about and had the high-tech equipment to find the problem and solve it efficiently and effectively"

A proud leader in our field, we work with clients across a range of industries including:

- Supermarket
- Cold storage factories and distribution
- Meat and poultry production and processing
- Food manufacturing and process cooling
- Pharmaceutical
- Petrochemical
- Pubs and Clubs
- Cafes
- Dairy
- Bakeries

Our team have extensive knowledge and capability and know how to deliver the best solution for you.

Preventative Maintenance

To ensure optimum performance and functionality and to assist in the prevention of unforeseen breakdowns your plant and equipment needs to be serviced regularly.

We will work with you to develop a preventative maintenance program that offers the right solution for you.

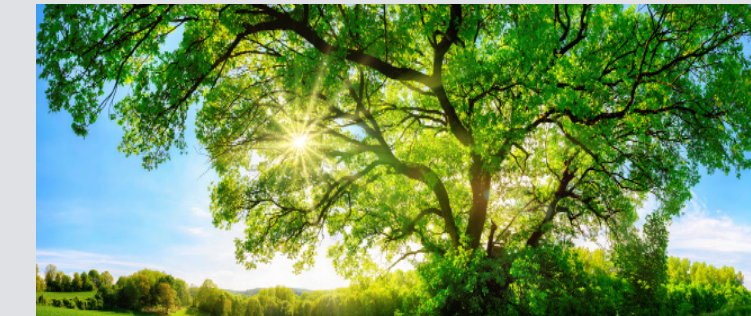

24/7 Breakdown Service

We understand that emergency break downs or faults have a critical impact on your business.

We offer a 24/7 breakdown service which means that one of our team will be on site to diagnose and repair your equipment without delay.

Our knowledgeable technicians will work quickly to ensure minimal disruption to your day to day operations and customers and get you back up and running as soon as possible.

Our team are fully equipped and stocked to accommodate your emergency.

Sustainability

We are committed to maintaining a bright, healthy and safe environment for future generations to come.

We encourage and work with our clients to build sustainable solutions for their business and limit the overall impact our industry has on the environment.
